

Complete ERP to run your business

NetSuite ERP is the first solution to deliver on the promise of intelligent, integrated and simpler applications for growing and mid-sized business.

benefits experienced by organisations using NetSuite include:

- Reduced IT costs by 50% or more
- Accelerated financial close by 20% - 50%
- Cut order-to-cash cycle by 50%+
- Reduced audit preparation time by 50%
- Reduced invoicing costs by 25%-75%
- Reduced IT costs by 50% or more
- Reduced day sales outstanding by 10%-20%.

key benefits

- Improved financial operations efficiency and productivity with a single, integrated system to handle all core processes for users anywhere in the world
- Timely financial close centralising management of all period-end close activities to reduce time and resources spent investigating and resolving errors
- Ongoing compliance with revenue recognition, tax requirements and financial reporting in accordance with various accounting standards and government regulations
- Real-time visibility to see consolidated financial results for any part of the business at a summary level, and all the way down to the underlying transactional details.

Organisations today demand financial management solutions that are flexible enough to accommodate dynamically changing business needs.

NetSuite ERP enables you to manage IT costs, optimise accounting efficiency, streamline order management and procurement processes, eliminate manually-intensive spreadsheet-based reporting, and improve employee productivity.

The system holds all corporate data in a single database, giving you access to your key performance metrics on a customisable, real-time dashboard. As a result, it enables you to make better, faster decisions.

NetSuite's integrated, so within a single, powerful application, you have a combined customer-facing CRM and eCommerce capabilities with back-office accounting/ERP and self-service portals for partners. As a result, it allows you to unite fragmented data and automate processes from end-to-end.

It's also simple. With NetSuite, implementations are both faster and less expensive than traditional business applications. Modularity enables phased implementations according to your company's need. In addition, click not code and advanced customisation support business as you define it. As a web-based, on-demand solution, NetSuite significantly reduces your total cost of ownership.

Comprehensive accounting & finance

NetSuite ERP provides you with everything you need to establish efficient processes and gain transparency into business operations. In addition to standard general ledger functionality, flexible workflow tools to customise your processes and multi-currency support, NetSuite also delivers:

- End-to-end visibility into your receivables and payables with integrated order-to-cash (i.e. sales order, billing, collection) and procurement-to-pay (i.e. requisition, purchase order, invoice) transaction management.
- Inventory fulfillment and costing from factory-to-store with supply chain management capabilities.
- Complete fixed asset lifecycle tracking and reporting from acquisition to depreciation to retirement.
- Support for project accounting and reporting on project financials and profitability.
- Automatic revenue recognition in accordance with accounting standards upon flexible scheduling and sophisticated allocations.
- Full-service payroll processing, including support for time tracking, incentive compensation and expense reimbursement.
- Integrated budgeting and forecasting tools to manage financial projections against actuals.

Financial close management

NetSuite ERP helps organisations streamline the close process with capabilities to manage period-end activities, and to detect and respond to problems before they escalate or occur. NetSuite optimises the financial close by delivering:

- Period locking to prevent incorrect postings to future periods.
- Period close checklist of tasks to be completed sequentially.
- Financial adjustments for intercompany transactions, foreign currency revaluation and inventory.

Effective compliance & controls

NetSuite ERP ensures compliance with various accounting standards and practices, and government regulations efficiently. It enables accounting compliance by delivering:

- A powerful rule-driven engine to produce financial reporting in accordance with multiple accounting standards (e.g. GAAP, IFRS) using multi-book accounting capabilities.
- Pre-built tax filing and reporting tools that are country-specific.
- Customisable roles with permissions that support segregation of duties.
- Audit trail visibility into detailed transaction history, reports and saved searches.

Real-time reporting and analytics anywhere

Any business user can create meaningful reports with easy-to-use tools, monitor the latest results as part of everyday activities, identify root causes of problems and take corrective action. NetSuite delivers real-time information with:

- Personalised dashboards to monitor the KPIs important to any role, from the executive to staff.
- Pre-built accounting reports and an easy-to-use report builder for customising adhoc reports.
- Consolidated financial reporting for multiple subsidiaries and currencies.
- Access to information on-the-go with a mobile device.
