Course – FDMEE: Migration from FDM Classic

Duration	Cost	Prerequisites
1 Day	£990	None

Course Description

Learn the fundamentals of FDMEE in preparation for working with an implementation partner to migrate an existing FDM environment.

This course is specifically designed for existing FDM Classic Administrators who want to get up to speed on the new system. It's ideal preparation for working with an implementation partner to migrate an existing FDM environment and explores the possibilities and pitfalls of system migration. Find out what's new and different in terms of the technology, gain an understanding of what can be migrated and discover which elements will benefit from further development to take advantage of FDMEE's new features. This course also introduces new scripting capabilities using Jython. A comprehensive FDMEE Scripting E-Learning package is also available.
